- Testing
- C

Familiar:

- AWS
- C++
- Data Structures
- Multi-threading
- MYSQL
- Algorithms
- Assembly

PROJECTS / COURSES

Retrospective Toolkit • Senior Capstone • 08/12/2020 – 05/01/2021

Worked with a team of 5 people using AGILE in a multi-semester project for State Farm. The project, a 3D dice game, is intended to enhance communication in scrum meetings.

Technologies used: ReactJS, NodeJS, AWS, Heroku, JestJS

Computer Architecture – Simulated a single-cycle CPU in C++. CPU incorporated concepts such as pipelines and caches.

Computer Systems & Networks – Manipulated bitmaps in C. Created a P2P network that used a PUB/SUB model. Explored the Linux kernel and VMs.

EXPERIENCE

SHIFT SUPERVISOR • STARBUCKS COFFEE COMPANY • 9/4/2015 – PRESENT

Leading a team of baristas to promote exceptional experiences for customers. Worked tightly with multiple teams to consistently meet store objectives.

TECHNICAL SUPPORT REPRESENTATIVE • REFUNDS TODAY INC. • 11/1/2016 – 5/24/2018

Provided professional and personal support to customers with TaxWise, their systems, and networks for multiple tax seasons. Utilized Jira to organize customer tickets.

EDUCATION

SOFTWARE ENGINEERING • 12/2021 • ARIZONA STATE UNIVERSITY

Cumulative GPA 3.74, Deans List during full-time semesters.
